**RE: Michigan and Vermont Street Improvements
Final Surface Paving and Project Completion**

Dear Resident:

Construction of the Michigan and Vermont Street Improvements Project is nearly complete and has reached the point where the contractor is scheduled to install the final surface layer of hot-mix asphalt Friday, September 15, 2023. This work will take several hours to complete and will be disruptive to traffic on Michigan Ave. **To ensure you are not delayed on your way to any destinations you may have, it is recommended that you have any necessary vehicles out of your driveways and parked on side streets by 6:00 AM Friday September 15, 2023.** As a reminder, please do not park on North Michigan Ave from Vermont to Plymouth, any time between 6:00 AM and when the paving work is complete.

As part of this work, fresh oil will be applied to the road surface on N Michigan Ave. Residents are advised to drive slowly through the project area to prevent the oil from being splashed onto their vehicles.

Parkway restoration is expected to be completed this week. The contractor will be periodically watering the new sod for the 30 days following its installation. After the 30 days is up, the new sod will be inspected. Sod that has satisfactorily established at the 30-day mark will then become the responsibility of residents to water and maintain. Sod that is not satisfactory at the 30-day mark will be addressed by the contractor.

Beginning Monday, September 18, the standard overnight parking restrictions will resume. If you park overnight on the street without calling your vehicle in, you may receive a parking ticket.

Punch list work, such as inspections, the installation of pavement markings, sod watering, final adjustments to the utilities, and cleanup of the project area will take place over the next few weeks. You may see crews periodically in the area. This work should have little to no impact on residents.

All questions and comments regarding this project should be directed to the Engineering Division of the Village of Villa Park Public Works Department via email at engineering@invillapark.com or by phone at (630) 834-8505 between the hours on 7:30 AM and 4:00 PM. We thank you for the patience and understanding we have received with this project.
