**RE: Jackson Area Improvement Project
Hot-Mix Asphalt Paving (Madison)**

Dear Resident:

Construction of the Jackson Area Improvement Project has reached the point where the contractor is scheduled to install the first layer of hot-mix asphalt, or “binder course”, on Tuesday, May 27, 2025. To do this, the contractor will have to remove any temporary access ramps that have been installed for residents’ driveways. This work will take several hours to complete and will be disruptive to traffic on Madison Street. We ask that you please have any necessary vehicles out of your driveway by 6:00 AM Tuesday, May 27. Weather or other factors may delay paving. If paving is delayed, it will be rescheduled for the following day.

Please make arrangements to have any necessary vehicles out of your driveway between 6:00 AM and the end of the workday on Tuesday, May 27, 2025.

During this time:

- Residents are asked to park outside of active work areas project area during the day, where parking is normally permitted. Active work areas include Madison from Addison to Michigan, Addison from Madison to Washington, and Wisconsin from Madison to Washington.
- Residents with special needs should contact the public works department so that we can accommodate as best as possible.
- Do not park outside Village limits, as typical parking restrictions for the Village of Lombard still apply.
- The Villa Park Police Department will be notified of the need for this parking situation and should accommodate residents accordingly. You do not need to register with the police department to park on the street overnight.
- Final surface paving will not take place until all project streets are ready.

All questions and comments regarding this project should be directed to the Engineering Division of the Village of Villa Park Public Works Department via email at engineering@invillapark.com or by phone at (630) 834-8505 between the hours on 7:30 AM and 4:00 PM.
