**RE: Highland Avenue Resurfacing (Princeton to Villa)
Construction Start Notice**

Dear Resident:

This letter is to inform you that the construction of the upcoming Highland Resurfacing Project is tentatively expected to begin within the next few weeks. Preliminary work, such as utility locates, construction layout, traffic control setup, delivery of equipment and materials, and sawcutting of the pavement, will begin sooner.

This project consists of the milling and resurfacing of Highland Avenue from Princeton Avenue to Villa Avenue. Work also includes intermittent curb and gutter removal and replacement as needed, ADA compliant sidewalk ramps with detectable warnings, and drainage and utility structure adjustments. Project plans and other information can be found on the project page on the village website: www.invillapark.com/1258.

ROAD ACCESS, DRIVEWAY ACCESS, AND PARKING

Traffic within the project area will be affected by construction efforts. **On-street parking within the project area will be prohibited between the hours of 6:00 a.m. and 5:00 p.m., Monday through Friday.** In addition, temporary road closures and/or driveway access restrictions may be needed at times during construction. Efforts will be made to give residents access to their driveways overnight as much as possible during the project, but there will be a need for some overnight driveway closures at times. Advanced notice of any overnight driveway closures will be provided via door hangers. **During any overnight closures and/or access restrictions, residents will be allowed to park overnight on adjacent streets, where normally permitted.** Motorists are asked to follow all posted signs.

WATER SHUT-OFFS

This project does not include underground water utility work and no planned water shutoffs are expected.

PLEASE SEE REVERSE

SUMMARY AND FREQUENTLY ASKED QUESTIONS

- Construction is expected to begin within the next few weeks, and should be completed by the end of November 2025.
- The project area consists of Highland Avenue from Princeton to Villa.
- Curb and gutter will be replaced as needed with the project.
- All public sidewalk curb ramps will be replaced with new ADA compliant curb ramps. Full replacement of mainline public sidewalk is not planned due to budgetary constraints.
- Residents should have driveway access for most of the construction project. Temporary loss of access for brief periods may occur while work is taking place directly in front of a driveway, or while equipment or materials are moving through the site. If a vehicle is needed to make a scheduled appointment or event, it is recommended that the vehicle be parked on a street outside of the construction area ahead of time to ensure there are no delays.
- Street parking will not be permitted within the project area from 6:00 AM to 5:00 PM.
- Weather may affect the stated dates and times of planned construction activities.
- The prime contractor for this project is Builders Paving, LLC, of Hillside, IL. The design engineering consultant is TranSystems Corporation, and the on-site engineering is V3 Companies, Inc.

If you have any questions or would like additional information, please do not hesitate to contact the engineering division by email to engineering@invillapark.com, or by phone call to (630) 834-8505 Monday through Friday between the hours of 7:30 a.m. and 4:00 p.m.
