

## **NOTICE OF PUBLIC MEETING VILLAGE OF VILLA PARK**

The Village of Villa Park will be holding a public meeting on **Monday, April 27, 2015 at 7:00 PM**. The meeting will be held in the Board Room at the Village of Villa Park Village Hall, 20 South Ardmore Avenue, Villa Park, Illinois 60181.

The purpose of this meeting is to discuss the Village of Villa Park's Long Term Control Plan (LTCP). The Long Term Control Plan consists of updates and modifications to the Village's operation and maintenance procedures for its combined sewer system, as well as public notification of combined sewer overflow (CSO) events and ongoing efforts to control pollutants that could enter the sewer system.

The meeting is a requirement set forth by the Illinois Environmental Protection Agency (IEPA) as part of the Village of Villa Park's permit to operate its Wet Weather Flow Treatment Facility (WWFTF), and the points of discussion will be used to update the Village's Combined Sewer Overflow (CSO) Operation and Maintenance and Pollution Prevention Plan, previously issued and approved by the IEPA in 1998.

All are welcome to attend and to offer comments or ask questions regarding these issues. The regularly scheduled Village Board meeting will follow. Anyone with questions about the meeting should contact the Village of Villa Park Public Works Department at (630) 834-8505.
