RE: 2016 North Princeton Avenue Improvement Project

Dear Resident:

The installation of new sod as a part of the **2016 North Princeton Avenue Improvement Project** was completed on Friday, September 16. The contractor is responsible for performing all watering which is necessary to maintain the sod for a period of thirty days following the installation date. After this thirty-day period, which will end on Sunday, October 16, the homeowner will then be responsible for watering the sod as needed. The homeowner is also responsible for mowing and weeding the sod as necessary both during and after the thirty-day period. If any sod is not in a live and healthy condition at the end of the thirty-day period it will be the contractor's responsibility to address the affected sod at that time.

As always, all questions and comments regarding this project should be directed to the Engineering Division of the Village of Villa Park Public Works Department at (630) 834-8505. We appreciate your assistance and your cooperation. If you have any questions or would like additional information, please do not hesitate to contact us.
