RE: Jackson Pond Improvement Project

Dear Resident:

The Village of Villa Park will be submitting an application for grant funding for the **Jackson Pond Improvement Project**. This project consists of the expansion of the existing Jackson Pond stormwater detention basin, along with storm sewer installation and other related flood control improvements. These improvements are expected to provide a flood control benefit for your home.

As a part of the application process, the Village's engineering consulting firm, V3 Companies of Illinois, will be taking photos of homes in the vicinity of Jackson Pond. The consultant may be entering the yards of these homes to take these photos. This will take place between the Village's working hours of 7:00 AM and 5:00 PM, and will take place on either Thursday, October 26 or Friday, October 27. The consultant will be carrying copies of this letter while taking photos.

Additional information about this project can be found on the Village of Villa Park's "South Michigan Avenue Improvement Project (Madison to Jackson) and Jackson Pond Improvement Projects" page located at <http://www.invillapark.com/719/South-Michigan-Avenue-and-Jackson-Pond-I>.

All questions and comments regarding this project should be directed to the Village of Villa Park Engineering Division at (630) 834-8505. If you have any questions or would like additional information, please do not hesitate to contact us.
