## **Re: Rear Yard Topographic Survey**

Dear Resident:

The Village of Villa Park has contracted with Hancock Engineering to collect topographic data within the section of town bounded by the Union Pacific Railroad to the north, Villa Avenue to the east, Division Street to the south, and Cornell Avenue to the west.

Within the next three weeks you may see field technicians and GPS equipment throughout your neighborhood. A small portion of this work will need to be conducted within rear yards. If survey data is needed within your yard, a technician will knock on your door to let you know he will be accessing your property. He will be sure to close any gates before and after his work. The total time expected within a single yard is less than 15 minutes.

Please direct any questions or concerns regarding the survey to Chris Baker of Hancock Engineering by phone at (708)-865-0300 or email at [cbaker@ehancock.com](mailto:cbaker@ehancock.com).

Questions may also be directed to the Village of Villa Park Public Works Department at 11 West Home Avenue, or by phone at (630)-834-8505.
